Quality Range of Mattresses...
Available in Single, Double, T/Quarter, Queen and King & Custom Sizes

BENEFITS

EXTREME COMFORT: Memory foam absorbs downward pressure exerted by our bodies, which relieves undue pressure on joints and muscle stress. This allows for tension free spinal alignment. The High Density foam core provides firm support, which together reduces the need to toss and turn by up to 80%.

EASY MAINTENANCE: Non-flip technology and the spun-bond/foam quilted inner layer cover protects the mattress core by absorbing moisture and bacteria.

HEALTHY: Better sleep enables better brain and immune system functionality. Foam mattresses have better breathability and so are less likely to trap bacteria in their cell structure. Visco-elastic foam (memory foam) has been known to allow better blood circulation during sleep which can prevent nerve damage and prevent/alleviate aches and pains associated with uncomfortable sleeping surfaces.

QUICK OVERVIEW
Our Dreamfoam range comes in three different types being Silver, Gold and Platinum and are available in our standard sizes as well as custom sizes for special orders. For more information on each type please select your choice on the adjacent tabs. So say goodbye to overpriced imported products and say hello to Dreamfoam. Quality, comfort, luxury and value ALL IN ONE!

"Man is a genius when he is dreaming"
- Akira Kurosawa

Our Deluxe range brings our standard foam mattress, wrapped in an array of different quilted fabrics ranging from cool bamboo fibres, to soft knit breathable fabrics, tape-edged on all sides. This range also has complementing bases standing on cup-type PVC legs for sturdy support and the right amount of elevation. So if you want something just that little bit more luxurious, then our Deluxe range is what you need. Our Deluxe range comes in several sizes (see below).

Our Comfort Mattress is a new edition to our product list. Developed to cater for the dynamic economy, it comprises of a slightly lower density foam slab (14), cut to perfection, wrapped and sealed in its distinct ticking fabric in two colours. Our Comfort mattresses are priced extremely reasonably whilst still providing great comfort, quality and durability. Our Comfort range comes in several sizes.

OUR SUBSIDIARY

Superior Quality HDPE & PVC Pipes

A leading manufacturer of Plastics in Zambia.

Poly King Ltd of the Foam King Group brand has represented the leading edge of superior quality and value in the manufacture and distribution of pipes and fittings for the plumbing, building and agricultural trade as well as countless other industries. As a result of continuous innovation, commitment to excellence, research and development, our products have become recognised by consumers and contractors alike as the preferred choice for sustainable, efficient and durable pipe solutions in homes, farms, factories and buildings across Zambia and beyond.

Using the latest machinery in plastic extrusion together with a team of highly skilled engineers and technicians we manufacture superior quality HDPE and PVC pipes for the agricultural, commercial, mining and construction sectors.

PVC Pipes

Our rigid PVC pipes have various uses in the construction industry for plumbing and electrical appliances. Our sizes range from 160mm waste pipes to 20mm electrical conduits, covering all the sizes in between.

Our PVC pipes are manufactured using globally accredited virgin raw materials and formulations which bring to you only the finest quality for your exact needs according to international standards and industry specific application.

HDPE Pipes

We have emerged as a renowned name by offering a quality range of HDPE Pipes in the Zambian market, supplying a variety of private businesses, public institutes and individuals alike. Our specific production technique incorporates only the finest PE100 material to produce the top of the range in HDPE extruded poly-pipes. With our state of the art factory situated in the Copperbelt, we are able to cater for any and all orders with accuracy, efficiency and quality assurance.

Designed in compliance with IS standards, our range of Class 3 and Class 6 HDPE pipes find application in varied industries like Agricultural, Construction, Petrochemical, Mining, Food Processing and many more. Our pipes are widely appreciated for high chemical resistance and better flow characteristic, able to withstand pressure bar ratings as per international class standard.
